In Louisiana, juvenile sentencing practices can vary widely from parish to parish and are subject to change over time. The following report, issued quarterly, is designed to offer an up-to-date view of juvenile custody and supervision populations, both statewide and for five OJJ service areas. For further background on data definitions, sources, and interpreting the document, please see the accompanying guide.

It is our hope that monitoring these reports will help stakeholders at every level follow trends, inform planning, and identify areas in need of further investigation. The following observations are provided as examples to stimulate stakeholders to examine the data themselves with an eye toward local needs and concerns:

- During the **second** quarter of **2013**, there were **546** youth with a secure custody legal status, **295** non-secure custody, and 89 FINS custody statewide.
- Statewide, about **1.10** youth per thousand had a secure delinquent status; **less than 0.61** per thousand had a non-secure delinquent status.
- African American youth are disproportionately represented in every custody and supervision status.
