Emergency Count – A formal count initiated by a supervisor after unforeseen events, such as disturbances, when youth are believed to be missing, after lengthy power failures, following or during inclement weather conditions, or other events where the need exists to determine if all youth are accounted for.

Formal Count – An official visual count, which is conducted in an organized manner during designated times of the day or night, called in by way of radio or telephone, cleared by the Control Center Operator and accounts for all youth on the roster.

Informal Count – A frequent but irregular count made to verify that all youth are present and accounted for when youth are in school, on work details, engaged in daily living activities, recreation, or any other location to include housing units. (Informal counts are made between all other mandatory counts.)

Out Count - A record of all youth authorized to be away from their assigned housing unit while being supervised by staff in other locations at the time of a formal count.

Round - A complete and comprehensive inspection tour to provide for the safety of employees and youth of a particular area.

In housing units, a round shall include the following:

- A visual count/skin count of all youth to ensure no escapes or unauthorized area violations.
- Observations and interactions with youth to assess their mood, see if there are any problems, conflicts or other issues that need attention.
- A visual check of windows in the immediate area where youth are located.
- A visual inspection of video cameras for obstruction.
- A physical check of doors to ensure that they are locked or open, as the situation requires.
- A check to ensure that nothing obstructs visibility of the individual beds in sleeping areas.
- Walk rounds of the area, and note same in the housing unit logbook.
- Avoid keeping a predictable schedule of the rounds which are required in a particular area, in order to prevent the youth from knowing when improper activity will most likely be undetected.
- Ensure areas are clean, safe and in good repair.

In non-housing units, a round shall include the following:

- A visual check of tool/key control to ensure documentation is current (refer to YS Policy Nos. C.2.13 and C.2.14).

Employees must complete and submit a UOR prior to the end of their tour of duty on the day the incident was observed or comes to the employee's attention in any way. If a UOR form is not available, the employee must use any paper available to report the pertinent information. UORs may also be submitted by email. [Refer to YS Policy No. A.1.14].

Visual Count - A visual count of youth where employees must observe a living human body before counting a youth present, and must be certain of seeing the youth's actual body and not just a part of clothing or hair sticking out from underneath a blanket or other covering.

Youth Movement – An escorted movement of one or more youth from one assigned area to another assigned area.

Youth Movement Form– A form used to record youth movement.

V. POLICY:

It is the Deputy Secretary's policy that clear and practical procedures exist to ensure accurate and around-the-clock accountability for all youth assigned to secure care facilities. Facility Directors shall establish and maintain Standard Operating Procedures (SOPs) in accordance with the requirements of this policy and ensure uniformity in youth counts, movements, and count records.

VI. STAFF GUIDELINES AND PROCEDURES FOR YOUTH COUNTS:

A. Formal Count Procedures

Formal Counts shall be announced. All youth movement shall cease from the time the formal count begins until it is cleared. Counts do not end until the Control Center Operator has officially announced that the count has been cleared. Formal counts shall be conducted as follows:

Formal counts shall be held at a minimum of five times per day during the timeframes outlined below.

1. 5:00 a.m. – 6:00 a.m.;
2. 11:00 a.m. – Noon;
3. 4:00 p.m. – 5:00 p.m.;
4. Sundown;
5. Midnight; and
6. Every hour after midnight until the first morning count.

The Sundown count will be a slightly variable time period based upon the season, i.e., later in the evening during Daylight Savings Time and earlier in the evening during Standard Time.

An additional count between the Sundown and Midnight count is highly recommended. Count times are arranged to provide as little interference as possible with the daily work activity schedules and still provide accountability.

Each unit count shall be documented in the housing unit logbook and called in to the Control Center Operator. Stick-out counts (detailed in Section VI.D below) shall be reported with the count.

Formal counts should be made with two employees when available. One employee should observe youth movement while the other counts to prevent youth from changing location during the count. The employees who handled the counting shall remain in the area until the facility count is officially cleared by the Control Center Operator.

An unannounced formal count may be used to periodically determine the location of all youth in the facility.

B. Emergency Counts

Emergency counts shall be taken at unscheduled times for reasons listed under the Emergency Counts definition. Youth shall be required to return to their housing unit, when practical. The Master Emergency Count Sheet shall be prepared quickly and accurately with verbal or telephone out counts approved by the designated OSS. Emergency counts taken at night shall disrupt youth as little as possible. Emergency counts shall be called in and documented by the Control Center Operator.

After a major disturbance is under control, an emergency formal count shall be taken to determine that no one escaped or is in hiding.

C. Informal Counts

Informal counts may be taken at any time. Employees are encouraged to do more informal counts to ensure that counts are correct throughout their tour of duty. (Example: In the case of work details, a count is made when the detail assembles for work, at frequent intervals during the work period, and when the detail is dismissed at the end of the work period.)

Informal counts are recorded in the logbook and shall be reported to the Control Center.

D. Stick-Out Counts

1. Stick-out counts are counts that are conducted in areas other than housing units, such as in food services and other areas of normally authorized locations. When conducting and submitting the counts, employees are to actually see the youth before turning in these counts.
2. Any employee that places a youth in stick-out count status shall be responsible for maintaining custody of the youth until the count has cleared. In the event the count does not clear for that reason, the OSS shall be responsible for locating the youth and authorizing the out count.
3. The OSS and the employee who failed to place the youth on stick-out count status or failed to maintain custody of the youth while on out count, shall immediately complete a UOR and submit it to the Facility Director.

E. Midnight Count Breakdown

1. The Midnight Count Breakdown shall be conducted at midnight. The employee working the housing unit shall count and report the number of youth by race in the area to the Control Center Operator and document that information in the housing unit logbook.
2. The "Midnight Count Breakdown Form" shall be filed in the Control Center.

F. Youth Movement and Work Details

1. As youth movements occur, they shall be reported to the Control Center Operator.
2. Youth assigned to work details outside the perimeter fence shall be counted at the Front Gate and the number of youth reported to the Control Center Operator.
3. Following written prior notification of youth trips or furloughs to the Control Center Operator and the Front Gate, and prior to departing the facility, the employee assigned to the Front Gate shall count each youth and verify the information on the trip ticket, etc., and shall submit the out counts to the Control Center Operator before the trip is clear to exit the facility ground. If there are any discrepancies in the information received or discovered, the employee assigned to the Front Gate shall notify the OSS and the Control Center Operator.
4. A count of all youth working details on facility grounds (i.e., yard, laundry, dining hall, maintenance, etc.) shall be called in to the Control Center Operator upon assignment of the youth to the detail in order for the Control Center Operator to complete the "Youth Movement Form". Youth shall remain with the detail supervisor until the count clears. The Control Center Operator shall be notified immediately of any youth released from a work detail and informed of the youth's new location.

G. General Guidelines on Counts

1. Any exceptions or discrepancies in counts shall be reported and resolved immediately.
2. Any time an employee relieves another in a housing unit, a formal count shall be made and documented in the housing unit logbook. If there is a discrepancy in the count, the Control Center Operator and the OSS shall immediately be notified.
3. Counts conducted after dark must be made with enough light to actually see the youth being counted.
4. Youth shall be visually counted individually and not by roll call.
5. Employees shall stress to youth the importance of counts.
6. Youth shall never take part in the actual count process.

VII. PROCEDURES FOR SCHOOL COUNTS:

- A. The Louisiana School Compulsory Attendance Law is enumerated in the Louisiana Handbook for School Administrators, Bulletin 741.

The form shall be filled out completely and given to the employee or treatment staff member assigned to that classroom or area of the school.

That employee shall ensure that the form is delivered to the School Count Officer. Youth shall not be allowed to deliver the form. All youth assigned to the school must be accounted for at each formal count. The School Count Officer shall report any discrepancies or problems to the Control Center Operator, the School Principal and the OSS. All employees involved shall complete a UOR. It shall be the responsibility of the OSS to clear the count.

- D. Informal counts shall be taken by all employees (teachers, para-educators and YS employees) working in the school during each school day.
- E. The "Teacher's Report of Absences Forms" shall be maintained in the school office.
- F. When a youth is removed from school programming due to violations/consequences as outlined in YS Policy No. B.5.1, the School Count Officer must be notified and the information shall be logged in the school's log book by an employee working in the school. Notation shall also be made on the appropriate roster to show that the youth has been removed from programming. The School Count Officer shall advise the Control Center Operator of the location of the youth at the time of removal. Youth shall not be removed from school except for extenuating circumstances.

VIII. CONTROL CENTER GUIDELINES AND PROCEDURES FOR YOUTH COUNTS/MOVEMENT:

- A. Counts, Logging, and Master Count Sheets

These movements include on and off facility-ground movements, reassignments, trips, transfers or any other action that affects a youth's location.
7. Counts do not end until the Control Center Operator has officially announced that the count has been cleared.
8. The Control Center Operator shall total and verify all counts received, and shall notify the OSS when the count is cleared.

IX. REPORTING REQUIREMENTS FOR UNUSUAL OCCURRENCES AND/OR DISCREPANCIES IN OFFICIAL COUNTS:

- B. Should there be a reason to believe that a youth is missing, an emergency count shall be conducted to determine who and how many youth are missing. When an emergency count is conducted and the youth is not found, the procedures outlined in YS Policy No. C.2.1 shall be followed.
