It is the Deputy Secretary's policy that all YS and CHP employees shall meet the requirements of the Driver Safety Program, which is part of the overall Office of Risk Management's Loss Prevention Program. The use of a state-owned vehicle is considered to be a privilege provided by the state so that official job responsibilities can be fulfilled. Unit Heads are responsible for insuring that this privilege is exercised appropriately and that the operation and management of state-owned vehicles is as economical and effective as possible.

State vehicle violations shall be addressed through the disciplinary process, up to and including termination.

## VI. PROCEDURES:

### A. Authorization Process

1. Each applicable Unit Head shall designate the person(s) responsible (referred to herein as "Safety Officer") for bringing all affected employees into compliance with the requirements of the Driver Safety Program.
2. Each applicable Unit Head is responsible for designating which employees are authorized to drive state vehicles or personal vehicles on state business.

usage, by the Unit Head for each personal vehicle request, on the attached "Travel Authorization Form". A copy of each approved authorization form shall be maintained on file by the Unit Safety Officer.

## Responsible Operation:

Drivers of state vehicles must operate their vehicles in a responsible manner at all times. ## Maintenance And Repair:

All maintenance and repairs should be performed by the agency's own repair facility, if one is available, or through the

Statewide Fleet Fuel and Repair/Maintenance Service contract as specified in the Governor's Executive Order governing small purchases. Tires, batteries, glass, and transmission repair/replacement should be obtained through specific state contracts if available. Please contact the Office of State Purchasing concerning the viability of these contracts. Preventative maintenance should be performed in accordance with the vehicle manufacturers guidelines. All preventative maintenance should be documented and maintenance data entered in the State of Louisiana's official system of recordation.

The employee will be placed on the unauthorized list until the document is received, reviewed and approved. In some cases, i.e., Mississippi, the employee may have to personally obtain the certified out-of-state ODR. # INTRODUCTION

This booklet will provide information necessary to interpret an individual's driving history. It will assist users in interpreting the data on an individual's record regardless of what system they use to access the record.

## SYSTEMS AVAILABLE TO ACCESS RECORDS ARE:

- The "LL" (OMV Driver History records) system used by government agencies, courts, some law enforcement agencies. These are in-house records and all records are displayed regardless of whether they are displayed or not displayed on the Official Driving History Record (ODR). They are for departmental use and cannot be given to the individual himself or any unauthorized entity.
- The "LEMS" (Law Enforcement Message Switch) system used by larger law enforcement agencies. Exact replica of information displayed on "LL" system. These are in-house records and all records are displayed regardless of whether they are displayed or not displayed on the official driving record. They are for departmental use and cannot be given to the individual himself or any unauthorized entity.
- The "ODR" (Official Driving History Record) system enables any authorized requesting party to obtain information on an individual's driving history in accordance with the Federal Privacy Act.

A person's driving history includes suspensions, disqualifications, revocations, convictions, accident involvement, name, address, date of birth, sex, license number, class of license, license expiration date, restrictions or endorsements, and disclosure code.

The violations/offenses displayed on-line depend on the system accessed. The ODR only displays those records mandated by Louisiana State Statutes. The "LL" and "LEMS" systems display *all* of an individual's violations/offenses.

The record retention period depends on the system accessed. The retention period on the "LL" (OMV Driver History records) system is five/ten years or 55 years if a CDL licensee. The retention period on the "LEMS" (Law Enforcement Message Switch) system is five or ten years. The retention period on the ODR (Official Driving History Record) system varies in accordance with statutory requirements.

# LICENSES

## **CLASS OF LICENSES**

Louisiana's scheme for identifying the license class changed when the new Federal Commercial Driver License System was brought on-line in Louisiana on December 1, 1991. The previous scheme had classes A, B, C, D, H, and I. The current scheme has A, B, C, D, E, H, and I. See lists below:

<b>OLD CLASS</b>		<b>NEW CLASS</b>	
INDIVIDUAL LICENSE	<b>A</b>	COMMERCIAL (CDL)	<b>A, B, OR C</b>
COMMERCIAL LICENSE	<b>B</b>	LOUISIANA COMMERCIAL	<b>D</b>
COMMERCIAL LICENSE	<b>C OR D</b>	INDIVIDUAL LICENSE	<b>E</b>
HANDICAP CARD	<b>H</b>	HANDICAP CARD	<b>H</b>
IDENTIFICATION CARD	<b>I</b>	IDENTIFICATION CARD	<b>I</b>

Licenses issued before December 1, 1990, under the old system have an asterisk preceding the license class. Licenses issued after December 1, 1990, have a space preceding the license class.

**EXAMPLES: (OLD) \*A, (NEW) E.**

**MOTORCYCLES AND MOTORBIKES ----** A licensee may lawfully operate a motorcycle, motorized bicycle or motor-driven cycle (if equipped for road or highway use) with any class of license. The licensee must take and successfully pass tests specifically designed for the operation of these vehicles. An "M" endorsement on any class of license indicates the licensee is authorized to operate one of these cycles.

**GRADUATED LICENSING PROGRAM ---** As of January 1, 1998, all minors 15 and 16 years old are required to go through the Graduated Licensing Program prior to becoming eligible for full Class "E" driving privileges. For specifics, see the Graduated Licensing Program on pages 7-8.

**DRIVERS LICENSE RENEWAL BY MAIL/INTERNET ---** As of March 20, 1995, a licensee was allowed to renew his/her driver's license by mail under certain conditions. If the licensee meets the criteria, a renewal invitation will be sent to him/her by mail. The licensee has the right to disregard the renewal invitation by mail. If the licensee chooses to renew by mail/internet, he/she will be sent a new credential to replace the credential in their possession. The old credential should be destroyed. The driving record is coded to indicate whether a driver was sent an invitation to renew by mail as the law provides for a renewal by mail every other renewal period. The driving record will also show the status of the mail-in renewal. For specifics, see the record codes.

**TEMPORARY DRIVING PERMIT ---** These permits are issued by OMV when a hearing has been requested and is being scheduled. The dates of the permit should be valid. The driving record may indicate a pending suspension or a disqualification; however, it is a valid driving permit issued by the Office of Motor Vehicles in lieu of a pictured license that allows the licensee to operate a motor vehicle until after his hearing has been held. OMV also provides Court Ordered Temporary Driving Permits to the courts to allow a driver to continue to drive while they are making installment payments to the court for their traffic fines. There will not be anything on their record to reflect this. The form type is DPSMV 3003 and it's only valid for 180 days. If the fine is not paid timely the court will forward a suspension to OMV which will reflect on the driving record and the driver will be suspended.

## **CLASS OF LICENSE REQUIRED**

Every person who operates a motor vehicle which is designed as being in either class "A," "B," "C," "D," or "E" under R.S. 32:408, before driving or operating any such motor vehicle on any public street, road, or highway of this State, shall secure from the Department an appropriately classified driver's license with all necessary endorsements. The class of driver's license needed depends on the kind of vehicle being driven.

- **EMERGENCY MEDICAL OR FIRE-FIGHTING EQUIPMENT** --- The only driver's license required of a full-time, regularly-paid operator or volunteer of an emergency medical vehicle or fire-fighting equipment unit employed by a municipality, parish, fire protection district, or other political subdivision of this State, or civilian employees of the U.S. military who are required to operate emergency vehicles, shall be a Class "E" driver's license when operating such vehicle or equipment unit in the course and scope of his employment. However, if a driver is employed by a private EMS service, he will have to secure a Class "D" license.
- **MILITARY VEHICLES** ---- The only license required for military personnel on active duty driving a military vehicle will be a Class "E" license. This includes National Guard and Reserve personnel while on duty and is valid only for operation of military vehicles.
- **FARM VEHICLES** ---- The only license required for farmers and their employees will be a Class "E" license as long as they are operating within 150 air miles of the owner or operator's farm. A farmer may transport agricultural products, farm machinery, farm supplies, agricultural crop production fertilizers, agricultural chemicals, or agricultural related fuels found to be hazardous under the provisions of the Hazardous Materials Transportation Act which requires the motor vehicle to bear a placard.
- **MOTOR SCOOTERS-/MOPEDS** --- A driver's license or motorcycle endorsement is not required for the operation of motor scooters or mopeds that are not equipped for road or highway use.
- **RECREATIONAL VEHICLES** --- The only license required for someone operating a recreational vehicle for personal use will be a Class "E" license.
- **COMMERCIAL VEHICLES** ---- Operator must secure from the Department an appropriately classified commercial driver's license (A, B, or C) with all necessary endorsements.

## **MILITARY/PEACE CORP PERSONNEL AND/OR DEPENDENTS:**

**Louisiana military personnel/dependents stationed outside the State of Louisiana (R. S. 32412F)** - The license (regardless of its class) of a **Louisiana resident**, including their dependents, who is a member of the Armed Forces/Peace Corp serving outside the State of Louisiana, **will remain valid until 60 days after discharge** provided the license was valid upon entrance into the service and not expired, suspended, disqualified or revoked. The person must carry upon his person the last license issued to him and proof that he is a member of the Armed Forces/Peace Corp or evidence of his discharge from same if within 60 day grace period. When the individual's license shows an expiration date that is expired, the status field on the record will indicate **"VAL/MLTRY"**. The **"VAL/MLTRY"** will only be displayed in the status field if the licensee has notified the department.

**Out of State military personnel dependents stationed in Louisiana (R. S. 32:404C)** - A resident dependent of any person on active duty with the Armed Forces and stationed within Louisiana, but who is domiciled in another state and has in his immediate possession both a valid license issued to him by his home state and a current military dependent identification card, shall be exempt from obtaining a Louisiana driver's license during the period of residency with the supporting member of the Armed Forces while stationed in Louisiana. Dependents must comply with normal renewal procedure of their home state.

## RESTRICTION AND ENDORSEMENT CODES

<b>CODE</b>	<b>DESCRIPTION</b>
<b>01</b>	<b>CORRECTIVE LENS</b> (Glasses/contacts).
<b>02</b>	<b>OPERATING A VEHICLE ONLY WITH LICENSED DRIVER.</b> In the case of applicants seventeen (17) years of age and above, this restriction will be issued to individuals needing more practical driving experience. An "02" restricted license may be renewed. In the case of applicants seventeen (17) years of age and above, this restriction is issued to individuals needing more practical driving experience. An "02" restricted license may be renewed and it is permissible to include an "07" (motorcycle endorsement) with such a license.  In the case of applicants fifteen (15) or sixteen (16) years of age, this restriction shall be issued on all first time applications. A motorcycle endorsement may be placed on a learners permit for those 15 or 16 years of age, however, they are restricted to operating within a distance of three miles from the applicant's residence, unless a parent, tutor, or other person having custody is temporarily staying or residing at another location, where the applicant would be restricted to operating within three miles of that location.
<b>03</b>	<b>USING LEFT OUTSIDE REARVIEW MIRROR.</b> Added to individuals who have impaired vision worse than 20/40 in either or both eyes. The "03" restriction does not mean that eyes cannot be improved.
<b>04</b>	<b>EYES CANNOT BE IMPROVED.</b> Information code designed to avoid the continued referral of an applicant whose vision cannot be improved. Should not be added unless specified by the eye doctor.
<b>05</b>	<b>AUTOMATIC TRANSMISSION.</b> Added for applicants who have lost one or both legs, or have lost the use of one or both legs. If the applicant wears one or two

artificial limbs, a driving test may be necessary to determine if he/she has adapted sufficiently for the safe operation of a motor vehicle without the necessity of the "05" restriction. In this case, restriction #40 (wearing artificial limb) would be required.

- 06**            **POWER STEERING.** Used when a physical handicap hinders the strength or movement of the applicant's arms. This would compensate for the loss of mobility of the arms to control the steering.
- 07**            **CYCLE ENDORSEMENT.** Motorcycle will be indicated by an "M" in the endorsement field only.
- 08**            **DAYTIME DRIVING ONLY.** Applies when the applicant's visual acuity is not 20/70 or better in each eye or upon the recommendation of a vision specialist.
- 09**            **SPECIAL RESTRICTION.** Used for any restriction which is not covered with a specific restriction code, or when there are four (4) or more restrictions to be used. This special code should be suitable and appropriate to enable the applicant to operate a motor vehicle safely. Anytime this restriction is used, it must be completely explained to the applicant, whether it is for a new license issuance or a renewal. Also the use of the 60 restriction (Restriction Card) will be used if necessary.
- 10**            **HEARING CANNOT BE IMPROVED. (THIS RESTRICTION CODE IS BEING REPLACED BY #73 OR #74. ONCE ALL LICENSES WITH A #10 HAVE BEEN REPLACED WITH A #73 OR #74 THEN #10 WILL BE DELETED).** This code gives information concerning the driver's disability which will aid him if he should be stopped by a police officer and is unable to communicate. To compensate for the disability, restriction #41.0 must be applied.
- 11**            **MUST WEAR HEARING AID.** Applies to applicants having a hearing problem which can be improved with a hearing aid.
- 12**            **RESTRICTED TO NO MORE THAN 5 MILE RADIUS OF HOME.** Applies to handicapped drivers that, for whatever reason, have slower than normal response times. This could be caused by the person's age, physical disability, visual problem, etc. These same considerations would apply in determining whether to impose any of the restrictions listed under numbers 13 through 19.
- 13**            **RESTRICTED TO NO MORE THAN A 10 MILE RADIUS OF HOME.** Determination for this restriction is to be based on the same criteria as stated in restriction #12.
- 14**            **RESTRICTED TO NO MORE THAN A 15 MILE RADIUS OF HOME.** Determination for this restriction is to be based on the same criteria as stated in restriction #12.
- 15**            **RESTRICTED TO NO MORE THAN A 20 MILE RADIUS OF HOME.**

Determination for this restriction is to be based on the same criteria as stated in restriction #12.

- 16 RESTRICTED TO NO MORE THAN A 25 MILE RADIUS OF HOME.**  
Determination for this restriction is to be based on the same criteria as stated in restriction #12.
- 17 RESTRICTED TO RURAL AREA ONLY.** May also apply to a handicapped individual with a slow response time, whatever the cause. This specifically prohibits operation of a motor vehicle by the handicapped driver in any corporate limit of any city, town or other incorporated areas.
- 18 NO INTERSTATE HIGHWAY DRIVING.** Driver must not operate a motor vehicle on an interstate highway. Determination for this restriction is to be based on the same criteria as stated in restriction #12.
- 19 DRIVING ONLY WITHIN PARISH OF PRINCIPAL RESIDENCE.**  
Determination for this restriction is to be based on the same criteria as stated in restriction #12.
- 20 RESTRICTED TO DRIVING A MAXIMUM OF 50 M.P.H.** Applied to a driver, for whatever reason, who has a slower than normal response time. This may be caused by the person's age, physical or visual disability, etc. The reduction in speed allows the driver more time to respond to changing traffic situations. These same considerations would apply in determining whether to impose restriction #21-#23.
- 21 RESTRICTED TO DRIVING A MAXIMUM OF 45 M.P.H.** Determination for this restriction is to be based on the same criteria as stated in #20. The speed is reduced because the disability is more severe.
- 22 RESTRICTED TO DRIVING A MAXIMUM OF 40 M.P.H.** Determination for this restriction is to be based on the same criteria as stated in #20. Restriction #18 should also be applied as this speed (40 M.P.H.) is not allowed on an interstate highway.
- 23 RESTRICTED TO DRIVING A MAXIMUM OF 35 M.P.H.** Determination for this restriction is to be based on the same criteria as stated in #20 and #22. Other restrictions, such as #12, #19 and #30 should be considered as well, due to the physical and/or visual disability.
- 24 VISION MEDICAL EXAM REQUIRED EVERY 6 MONTHS.** If it is determined that the driver has a progressive type of visual disability, disease or condition, this examination must be required in the form of a vision report furnished from a vision specialist every six months, unless a longer period for periodic reexamination is specified by the vision specialist. (See restrictions #25 and #26.)
- 25 VISION MEDICAL EXAM REQUIRED EVERY YEAR.** Used only upon specific

recommendation of a vision specialist. (See restriction #24)

- 26 VISION MEDICAL EXAM REQUIRED EVERY 2 YEARS.** Used only upon specific recommendation of a vision specialist. (See restriction #24 )
- 27 COMPLETE MEDICAL EXAM REQUIRED EVERY 6 MONTHS.** Applied only upon recommendation of a doctor.
- 28 COMPLETE MEDICAL EXAM REQUIRED EVERY YEAR.**

- 29 COMPLETE MEDICAL EXAM REQUIRED EVERY TWO YEARS.**  
Applied only upon recommendation of a doctor.
- 30 DRIVING ONLY BETWEEN THE HOURS OF 9:00 A.M. TO 3:00 P.M.** Used when a driver has a disability which may restrict his mobility and/or judgment to the degree that he would be unable to cope with heavy traffic. The hours 9:00 a.m. to 3:00 p.m. are normally light traffic hours.
- 31 SEAT CUSHION REQUIRED.** Used to compensate for a driver who is too short to reach the accelerator, brakes and/or clutch. This would only be added after the Motor Vehicle Officer has observed the driver on the outside driving test.
- 32 ACCELERATOR PEDAL ON LEFT SIDE.** Used when a driver has lost his right leg or the use of the right leg. This is a seldom used restriction since a person who has lost their lower limbs would normally be restricted to hand controls covered in restriction #34.
- 33 MECHANICAL TURN SIGNALS.** All late model vehicles are required to have mechanical signals but this would still be added to drivers who have lost the use of one or more of their upper limbs.
- 34 HAND CONTROLS REQUIRED.** Required on a paraplegic or at any time a driver has lost some degree of his or her reflexes in the upper/lower limbs. This also would be added in the case of dwarfs and amputees.
- 35 BRAKE AND ACCELERATOR CONTROLS REQUIRED.** Imposed for paraplegics or drivers who have lost some degree of mobility of their limbs. It differs from restriction #34 in that no hand controls for the dimmer switch is deemed necessary.
- 36 EXTENSION BAR FOR GAS PEDAL.** Seldom used restriction because drivers with a significant mobility handicap which would require an extension bar for the gas pedal would normally need hand controls. Only careful judgment of all factors involved would determine if only the extension bar for gas pedal is necessary.

- 37                   **DIMMER SWITCH ON STEERING COLUMN.** Seldom used alone. Normally, restriction #34 would be used when a driver has lost a significant amount of mobility of his limbs to warrant a dimmer switch on the steering column. If the Motor Vehicle Officer deems the restriction necessary, add the restriction to the license so that the driver will know all vehicles he or she drives should be properly equipped.
- 38                   **SPECIFIC DRIVING ROUTE MUST ACCOMPANY LICENSE.** Applies to the handicapped/slow response driver and consideration should be given to impose a driving route that meets his/her needs. This restriction applies whenever the driver's disability is such that he/she would not be capable of handling heavy traffic situations or is only capable of less restricted driving.
- 39                   **LIGHT TRAFFIC IN THE PARISH OF RESIDENCE ONLY.** Determination for this restriction is to be based on the same criteria as stated in restriction #17.
- 40                   **WEARING OF ARTIFICIAL LIMB.** Added when a driver has lost one or more limbs and has learned to use the prosthesis as well as the natural limb.
- 41                   **INSIDE AND OUTSIDE REARVIEW MIRROR.** Added to drivers who cannot hear and the disability cannot be improved with a hearing aid. The restriction of additional mirrors will aid the driver in detecting approaching traffic in the driver's blind spots.
- 42                   **LEFT AND RIGHT REARVIEW MIRRORS.** Differs from restriction code #41 in that inside mirror is not mandated in this restriction.
- 43                   **SPECIFIC VISUAL FOR CDL.** (Effective 12-01-90, must be used in conjunction with restriction #53.) Used whenever CDL applicants can only achieve 20/40 (Snellen) visual acuity in one eye. EXAMPLE: Applicant is blind in one eye, but achieves 20/40 with or without corrective lenses in the good eye. Applicant must have been employed as a commercial vehicle driver continuously since March 31, 1990.
- 44                   **EYEGASSES/CONTACTS, LEFT OUTSIDE REARVIEW MIRROR, EYES CANNOT BE IMPROVED.** Combines requirements under restrictions, #1, #3, and #4.
- 45                   **EYEGASSES/CONTACTS, LEFT OUTSIDE REARVIEW MIRROR, EYES CANNOT BE IMPROVED, DAYTIME DRIVING ONLY.** Combines requirements under restrictions #1, #3, #4, and #8.
- 46                   **RESTRICTED TO DRIVING A VEHICLE EQUIPPED WITH AUTOMATIC TRANSMISSION, POWER STEERING, MECHANICAL TURN SIGNALS, HAND CONTROLS, EXTENSION BAR FOR GAS PEDAL.** Combines requirements under restriction #5, #6, #33, #34, and #36.

After the 180 day period, this license will only be good for the previous class license listed on the CDL waiver form. The explanation to this restriction (court order or administrative documents) must be attached and carried with the license at all times.

An employee who has pled or been convicted as outlined in Numbers 1 and 2 above may also be subject to disciplinary action or removed from employment based on the employee's job requirements.

I have received this notice on the \_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_. I understand that I will remain on the unauthorized drivers list for a period of 12 months and receive retraining in Defensive Driving at the end of the 12 months.
